# Emergency Preparedness for Dialysis Patients

Email: info@midwestkidneynetwork.org

Phone: 1-800-973-3773

Website: www.midwestkidneynetwork.org

#### How to Use This Guide

The tips in the booklet may not work for every patient or in every emergency situation. Talk to your doctor and renal dietitian. They can address your individual needs or conditions.

#### Preparing for an Emergency

- 1. Gather and carry important medical information (see pages 3, and 6-8).
- Ask your dialysis provider about how to find alternative arrangements for treatment in the event you cannot reach your dialysis facility.
- 3. Prepare an emergency stock of supplies, food, and medicines. (See emergency supply checklist on page 8, and emergency grocery list on page 4).
- 4. Know what diet to follow if your dialysis must be delayed. Ask your doctor or dietitian which diet is best for you and see sample menu on page 5.

#### When an Emergency Occurs

- 1. Ensure environment is safe.
- 2. Stay home unless you are injured.
- 3. Notify your dialysis facility that you are not able to come to the facility for treatment and await further instruction.
- 4. If you cannot reach your dialysis facility, contact your alternate dialysis facility or your ESRD Network.
- 5. Start to follow your emergency diet (see pages 4 and 5).
- 6. Contact your water and/or electric utility companies if you are without power and water. Notify them of your special needs.

#### **Current Medications**

You need to carry information about all the medicines you take.

List those prescribed by your doctor and any over-the-counter medicines you may take.

Name of medication	Dose	How many pills do you take each time?	How many times per day?	What time(s) to take pills?

# **Food Supply List**

This list provides a 6-day supply of canned foods and water. Use fresh foods as long as they are available.

4 – 8 ounce (oz.) cans of evaporated milk
1 or 2 gallons of distilled or bottle water
2 packages powdered fruit-flavored drink mix
1-2 cans or bottles of soft drink
6-pack of 4 oz. cans/boxes of fruit juice (cranberry,
apple, or grape)
6 boxes of single-serving cereal (NO Raisin Bran)
small box of white sugar (or box of sugar packets)
12 – 4 oz. cans or "fruit bowls" of fruit (NO raisins)
6 – 8 oz. cans of low sodium vegetables (carrots, greer
beans, peas, corn, or wax beans)
$_{}$ 6 – 3 oz. or 4 oz. cans of low sodium meat (tuna, crab,
chicken, salmon, or turkey)
1 jar peanut butter
1 small jar jelly or honey
8-12 single-serve foil wrapped packs mayonnaise
1 loaf regular bread (not salt-free, NO preservatives)
1 box vanilla wafers OR graham crackers
1 jumbo pack of chewing gum

## 3-Day Emergency Diet Plan

	Day 1	Day 2	Day 3
Breakfast	1/4 cup evaporated milk with 1/4 cup distilled water 1 box of cereal 1/2 can (2 oz.) of canned peaches (drained)	1/4 cup evaporated milk with 1/4 cup dis- tilled water 1 box of cereal 1/2 can (2 oz.) of canned pears (drained)	1/4 cup evaporated milk with 1/4 cup distilled water 1 box of cereal 1/2 cup of cherries (drained)
Snack	Vanilla wafers (5) or graham crackers (1–1/2 squares)	1/2 cup canned applesauce	Vanilla wafers (5) or graham crackers (1–1/2 squares)
